PROFESSIONAL SUMMARY

Results-driven **Full Stack Software Engineer** with 7+ years of experience architecting, developing, and deploying **enterprise-grade, cloud-native applications** using **Java, Spring Boot, React.js, FastAPI, Python, Azure, Azure Databricks, SharePoint,** and **SQL**. Proven track record designing **scalable microservices**, **AI-powered enterprise solutions**, **RESTful APIs**, **CI/CD automation**, **containerization (Docker, Kubernetes)**, enterprise system integrations, data engineering pipelines, and cloud platform modernization initiatives. Adept at translating business requirements into robust, secure, and high-performance technical solutions within Agile teams.

CORE COMPETENCIES

Languages	Java, Python, JavaScript, TypeScript, SQL, HTML5, CSS3
Frontend Development	React.js, Next.js, Tailwind CSS, Responsive Web Design
Backend Development	Spring Boot, FastAPI, RESTful API Design, Hibernate, Microservices Architecture
Cloud & DevOps	Microsoft Azure, Azure App Service, Azure Automation, Azure Databricks, Docker, Kubernetes, Helm, ArgoCD, GitHub Actions, CI/CD Pipelines
Data & AI/ML	PySpark, IBM Cognos, LLM Integration, Glean AI, Data Engineering, Enterprise Search
Microsoft Ecosystem	SharePoint Online, Microsoft Graph API
Databases	MySQL, SQL Server, Query Optimization
Tools & Practices	Git, Maven, Postman, Insomnia, VS Code, IntelliJ IDEA, Agile/Scrum, SDLC

PROFESSIONAL EXPERIENCE

Consultant — EXL Services Pvt. Ltd. *Jan 2022 – Present*

AI-Powered Automotive Platform

- Designed and developed an **AI-powered automotive platform** using **React.js, FastAPI, Azure Databricks,** and **REST APIs** to streamline customer engagement and business operations.
- Engineered scalable frontend and backend services following **microservices architecture** and enterprise design principles for high availability and maintainability.
- Implemented bi-directional **Slack integration**, enabling real-time notifications, workflow automation, and cross-team collaboration.
- Integrated **Large Language Models (LLMs)** and **Glean AI** to deliver contextual enterprise search, intelligent document summarisation, and knowledge retrieval capabilities.

Content Optimization Platform

- Architected end-to-end **CI/CD pipelines** using **GitHub Actions, Docker, Kubernetes, Helm,** and **ArgoCD** across Development, Test, and Production environments.
- Containerized **React.js** and **FastAPI** services and deployed workloads on **Microsoft Azure** using **Docker** and **Kubernetes**.
- Automated build, deployment, and release workflows, improving deployment consistency, traceability, and operational efficiency.

Data Migration & Platform Modernisation

- Designed and developed a **Data Risk Management platform** using **React.js, SharePoint, Azure Databricks, REST APIs, Microsoft Graph API,** and **PySpark**.

- Engineered scalable **data migration pipelines** to securely transfer enterprise data from **SharePoint Online** to **Azure Databricks**.
- Built scalable **data processing and reporting** solutions supporting enterprise analytics and governance workloads.

Reporting & Analytics

- Developed enterprise reporting solutions using **MySQL** and **IBM Cognos**.
- Enhanced reporting logic and automated data segregation processes to improve data accuracy and turnaround time.

Ticketing & Operations Platform

- Developed workflow and ticket management applications using **React.js, SharePoint,** and **REST APIs**.
- Improved operational visibility and accountability through real-time workflow tracking.

Product & Catalog Management

- Designed **REST APIs** for product and catalog master data management.
- Prepared technical design and **Knowledge Management System (KMS)** documentation within Agile teams.

Developer — Velocis System Pvt. Ltd. *Jan 2020 – Dec 2021*

- Developed enterprise applications using **Java, Spring Boot, Hibernate,** and **SQL**.
- Built and maintained **REST APIs** and backend business logic for production systems.
- Collaborated with QA teams to identify, triage, and resolve defects, improving release quality.

Android Developer Intern — MCT India Infotech Pvt. Ltd. *Feb 2019 – Jun 2019*

- Developed a native **Android application** using **Java** and **Android Studio**.

CERTIFICATIONS

- **Fundamentals of the Databricks Lakehouse Platform** Accreditation (2023)

EDUCATION

Bachelor of Technology | Sri Sukhmani Institute of Engineering & Technology | 2015 – 2019 | CGPA: 7.44
